

DEPARTMENT OF COMMERCE

RADIO DIVISION

May 10, 1928.

OFFICE OF SUPERVISOR OF RADIO  
FEDERAL BUILDING  
CHICAGO, ILL.

Mr. Frank J. Jutrash  
385 - 11th Avenue, Apt. 5  
Milwaukee, Wisconsin

My dear Mr. Jutrash:

Receipt is acknowledged of your communication dated the 16th instant, in further reference to all classes of radio operator examinations to be held in Milwaukee on Saturday, May 26, during the time that your amateur convention is in session.

It is assumed that the examinations, as usual, will be held in the Federal Building, but as yet no arrangements have been made with the Civil Service Secretary. As soon as definite information is obtained as to the exact location of the examination room you will be notified.

I deeply regret to inform you that from present indications it will not be possible for me to attend the dinner on Saturday evening, May 26, although I had previously planned to be there at that time.

For your information, I leave here on Sunday night, the 13th, for Kansas City and Omaha, returning on the 18th, and on the 19th leave again for an inspection trip through northern Minnesota and North Dakota, and on my return expect to be in Minneapolis-St. Paul on the 25th. If I can possibly finish up the work I have to do there in one day I will arrive in Milwaukee on the morning of the 26th, but present indications are that I will probably be required to remain there for two days. However, if in any way I find that I am able to expedite matters, will do so in order that I may be with you on the 26th.

In either event, I will be very well represented in the person of Senior Radio Inspector George S. Turner, of this office, who most of you know and who will be very pleased to give an interpretation of the new amateur regulations at your dinner.

Yours very truly,

*H. D. Hayes.*

Supervisor of Radio.
